TRIBUTE TO THE SOUL
SCULPTURES

UNITY SCULPTURES

*"I create to transform space.
My works are presences to be entered and felt.
They hold light, stillness, and a resonant field of presence that quietly
alters the atmosphere around them.*

*Each piece becomes a threshold for contemplation, initiating a subtle dialogue
between viewer and space, between the tangible and the intangible, between
what is fleeting and what quietly endures beyond time."*

Veronica Man

"Through minerals, sacred geometry, and intention, each piece is a Totem of Light, harmonizing spaces, inspiring inner growth, and inviting the soul toward freedom and self-fulfillment."

Each piece in this catalog is available upon direct inquiry with the studio,
and can be viewed at the following representations:

The background is an abstract, fluid composition of teal, blue, and dark navy tones, resembling flowing water or smoke. The colors transition smoothly, with lighter teal at the top and darker blues at the bottom, creating a sense of movement and depth.
