

INFINI TABLE

"Everything in life moves in circles.
The seasons return, the tides rise and withdraw, the stars repeat their slow
dance across the night sky. Every ending carries a beginning.

Every fall prepares a resurrection. This truth has guided my life, and it
shaped this table.

I was inspired by the symbol of infinity, from the Latin infinitas, without end,
without boundary.

Two curves that flow into each other and never close. A single line that falls,
rises and returns, forever.

To give it form, I turned to sacred geometry.

Every measure of this table follows sacred proportions, the same numbers
that order a seed, a shell, a galaxy. Nothing in it is arbitrary. Its balance is the
balance of the universe, translated into stone.

I chose marble because it is the material of time. Formed over millions of
years, born from the transformation of the earth itself, it already knows what
it means to be destroyed and reborn.

This table is a reminder that life is not a single journey but a series of cycles,
of endings and renewals, of endless growth. That our consciousness keeps
expanding. That the soul is forever learning, evolving, returning."
